	Ag18728 Form: Available lyophilized Species: human			
			Expression Source: <i>e coli.</i> -derived, PGEX-4T, with N-terminal GST.	(353-549 aa encoded by BC112937)
			Biological Activity: Not tested	
			Endotoxin Level: Please contact the lab for more information Validated Application: Blocking peptide	
	Reconstitution and Storage	Reconstitution: Reconstitute at 0.25 µg/ µ l in 200 µ l sterile water for short- term storage. After reconstitution with sterile water, if glycerol has no effect		
		on subsequent experiments, it is recommended to add an equal volume of glycerol for long-term storage (see Stability and Storage for more details). If a different concentration is needed for your purposes please		
		adjust the reconstitution volume as required (please note: the ion concentration of the final solution will vary according to the volume used). Note: Centrifuge vial before opening. When reconstituting, gently pipet and wash down the sides of the vial to ensure full recovery of the protein into colution.		
	Stability and Storage	recovery of the protein into solution. Store for up to 12 months at -20°C to -80°C as lyophilized		
	powder.			
Storage of	Short Term Storage: Store at 2-8°C for (1-2 weeks).			
Reconstituted Protein	Long Term Storage: Aliquot and store at -20°C to -80°C for up to 3 months,			
	reconstitution with sterile water and addition of an equal volume of glycerol. Avoid repeat freeze-thaw cycles.
