ERCC3 Polyclonal antibody Catalog Number: 10580-1-AP Featured Product

Group brand and is not available to purchase from any

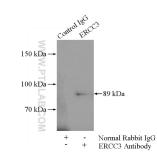

other manufacturer.

Basic Information	Catalog Number: 10580-1-AP	GenBank Accession Numl BC008820	per: Purification Me Antigen affinit		
	Size:	GeneID (NCBI):	Recommended		
	350 ug/ml	2071	WB 1:500-1:100		
	Source:	UNIPROT ID:	•	r 1.0-3.0 mg of total	
	Rabbit	P19447	protein lysate IHC 1:50-1:500		
	Isotype:	Full Name:			
	IgG Immunogen Catalog Number: AG0876	excision repair cross-complementing rodent repair deficiency, complementation group 3 (xeroderma pigmentosum group B			
	complementing)				
		Calculated MW: 89 kDa			
		Observed MW: 89 kDa			
Applications	Tested Applications:	Pc	Positive Controls:		
	WB, IHC, IP, ELISA		WB : HEK-293 cells, HeLa cells, A431 cells, COLO 320		
	Cited Applications: WB		ells, HT-1080 cells, mouse co	lon tissue	
	Species Specificity:	IP	IP : A431 cells,		
	human, mouse, rat	IH	IC : human stomach tissue,		
	Cited Species: human				
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0				
		l with citrate			
Background Information		ting 3/xeroderma pigmentosu ttions as an integral componer nscription and global genome lular level, a defect in ERCC3	nt of the transcription factor repair as well as in transcrip results in high UV sensitivit	IIH complex. ERCC3 i ption-coupled repair	
	buffer pH 6.0 Excision repair cross-complement dependent DNA helicase that func involved in initiation of basal trai (TCR) [PMID:19942596]. At the cell synthesis recovery and decreased	ting 3/xeroderma pigmentosu ttions as an integral componer nscription and global genome lular level, a defect in ERCC3	nt of the transcription factor repair as well as in transcrip results in high UV sensitivit	IIH complex. Selected Validation Data

Immunohistochemical analysis of paraffinembedded human stomach tissue slide using 10580-1-AP (ERCC3 antibody) at dilution of 1:200 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

HEK-293 cells were subjected to SDS PAGE followed by western blot with 10580-1-AP (ERCC3 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours. IP result of anti-ERCC3 (IP:10580-1-AP, 4ug; Detection:10580-1-AP 1:500) with A431 cells lysate 1200ug.
