

For Research Use Only

ProGRP Polyclonal antibody

Catalog Number: 14646-1-AP **1 Publications**

Basic Information

Catalog Number: 14646-1-AP	GenBank Accession Number: BC004488	Purification Method: Antigen affinity purification
Size: 230 µg/ml	GeneID (NCBI): 2922	
Source: Rabbit	UNIPROT ID: P07492	
Isotype: IgG	Full Name: gastrin-releasing peptide	
Immunogen Catalog Number: AG6239	Calculated MW: 16 kDa	

Applications

Tested Applications:
ELISA

Cited Applications:
IHC

Species Specificity:
human

Cited Species:
chimpanzee

Background Information

Gastrin-releasing peptide, also known as GRP, is normally formed by mucosal cells in the gastric antrum and by the D cells of the pancreatic islets, and its main function is to stimulate secretion of HCl by the gastric mucosa. HCl, in turn, inhibits gastrin formation. Its 148-amino acid preproprotein, following cleavage of a signal peptide, is further processed to produce either the 27-amino acid gastrin-releasing peptide or the 10-amino acid neuromedin C. These smaller peptides regulate numerous functions of the gastrointestinal and central nervous systems, including release of gastrointestinal hormones, smooth muscle cell contraction, and epithelial cell proliferation. These peptides are also likely to play a role in human cancers of the lung, colon, stomach, pancreas, breast, and prostate.

Notable Publications

Author	Pubmed ID	Journal	Application

Storage

Storage:
Store at -20°C. Stable for one year after shipment.

Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage
