## GSTT1 Polyclonal antibody

Catalog Number:15838-1-AP

Featured Product

Basic Information	Catalog Number: 15838-1-AP	GenBank Accession Number: BC007065	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	200 µg/ml	2952	WB 1:500-1:2000 IHC 1:50-1:500	
	Source: Rabbit	UNIPROT ID: P30711	THE 1.30-1.300	
	sotype:Full Name:gGglutathione S-transferase theta 1			
	Immunogen Catalog Number: AG8588	Calculated MW: 240 aa, 27 kDa		
		Observed MW: 28 kDa, 30 kDa		
Applications	Tested Applications:	Positiv	e Controls:	
	WB, IHC, ELISA Cited Applications:		WB : human brain tissue, rat liver tissue, mouse brain tissue, mouse liver tissue, HepG2 cells	
	WB, IHC, IF	IHC : ht	IHC : human kidney tissue, human testis tissue, human	
	Species Specificity: human, mouse, rat		skin tissue, human spleen tissue, human lung tissue, human heart tissue	
	Cited Species: human, mouse, hamster			
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0			
	GSTT1 belongs to the GST superfamily and Theta family. It is a conjugation of reduced glutathione to a wide numbe of exogenous and endogenous hydrophobic electrophiles. GSTT1 acts on 1,2-epoxy-3-(4-nitrophenoxy)propane, phenethylisothiocyanate 4-nitrobenzyl chloride and 4-nitrophenethyl bromide. It displays glutathione peroxidase activity with cumene hydroperoxide. GSTM1 and GSTT1 has been suggested as a risk factor in various cancers. GSTT1 is important in the detoxification of unidentified xenobiotics in the large intestine.			
Background Information	activity with cumene hydroperox	ide. GSTM1 and GSTT1 has been sug	l bromide. It displays glutathione peroxidase ggested as a risk factor in various cancers.	
	activity with cumene hydroperox GSTT1 is important in the detoxif	ide. GSTM1 and GSTT1 has been sug	I bromide. It displays glutathione peroxidase ggested as a risk factor in various cancers. in the large intestine.	
	activity with cumene hydroperox GSTT1 is important in the detoxif Author	ide. GSTM1 and GSTT1 has been su ication of unidentified xenobiotics Pubmed ID Journal	I bromide. It displays glutathione peroxidase ggested as a risk factor in various cancers. in the large intestine. Application	
Background Information	activity with cumene hydroperox GSTT1 is important in the detoxif Author Lingyi Zhang	ide. GSTM1 and GSTT1 has been sug	It bromide. It displays glutathione peroxidase ggested as a risk factor in various cancers. in the large intestine. Application h IHC	
	activity with cumene hydroperox GSTT1 is important in the detoxif Author	ide. GSTM1 and GSTT1 has been sug ication of unidentified xenobiotics Pubmed ID Journal 26423826 J Occup Healt	It bromide. It displays glutathione peroxidase ggested as a risk factor in various cancers. in the large intestine. Application h IHC

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

human brain tissue were subjected to SDS PAGE followed by western blot with 15838-1-AP (GSTT1 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours. Immunohistochemical analysis of paraffinembedded human kidney tissue slide using 15838-1-AP (GSTT1 Antibody) at dilution of 1:50 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human kidney tissue slide using 15838-1-AP (GSTT1 Antibody) at dilution of 1:50 (under 40x lens).
