Selected Validation Data

human liver tissue were subjected to SDS PAGE followed by western blot with 16621-1-AP (TMLHE antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 16621-1-PBS in a different storage buffer formulation.

rat kidney tissue were subjected to SDS PAGE followed by western blot with 16621-1-AP (TMLHE antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 16621-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human stomach tissue slide using 16621-1-AP (TMLHE antibody) at dilution of 1:200 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 16621-1-PBS in a different storage buffer formulation.
