## For Research Use Only

## **RETNLB Polyclonal antibody**

Catalog Number: 18232-1-AP

**Basic Information** 

Catalog Number: 18232-1-AP

Size: 450 µg/ml Source: Rabbit Isotype:

Immunogen Catalog Number: AG12912

**Purification Method:** Antigen affinity purification

Recommended Dilutions: IHC 1:50-1:500

**Applications** 

**Tested Applications:** 

IHC, ELISA

Species Specificity: human

Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (\*) Alternatively, antigen retrieval may be performed with citrate

buffer pH 6.0

Positive Controls:

IHC: human small intestine tissue,

## **Background Information**

RETNLB is an intestinal goblet cell-specific protein and is notably upregulated during intestinal inflammation. RETNLB also plays a role in several research areas, such as inflammatory disease, cancer, and metabolic function. In tumors, previous reports have suggested that positive expression of RETNLB was detected in most tissues from gastric carcinoma and colon cancer patients, RETNLB was also found involvement in oral squamous cell carcinoma [PMID: 34158059 19706296 27001185 15983036].

GenBank Accession Number:

BC069318

84666

Q9BQ08 Full Name:

GeneID (NCBI):

**UNIPROT ID:** 

resistin like beta Calculated MW:

111 aa, 12 kDa

Storage

Storage:

Store at -20°C. Stable for one year after shipment.

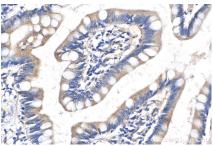

PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

## Selected Validation Data

Immunohistochemical analysis of paraffinembedded human small intestine tissue slide using 18232-1-AP (RETNLB antibody) at dilution of 1:200 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human small intestine tissue slide using 18232-1-AP (RETNLB antibody) at dilution of 1:200 (under 40x lens).
