

For Research Use Only

# Pinin Polyclonal antibody, PBS Only

Catalog Number: 18266-1-PBS

Featured Product

## Basic Information

Catalog Number:

18266-1-PBS

Size:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG6643

GenBank Accession Number:

BC062602

GeneID (NCBI):

5411

UNIPROT ID:

Q9H307

Full Name:

pinin, desmosome associated protein

Calculated MW:

82 kDa

Observed MW:

82 kDa, 140 kDa

Purification Method:

Antigen affinity purification

## Applications

Tested Applications:

WB, IF/ICC, IP, Indirect ELISA

Species Specificity:

human

## Background Information

PNN, also named as DRS or 140 kDa nuclear and cell adhesion-related phosphoprotein, is a 717 amino acid protein, which belongs to the pinin family. PNN localizes in the plasma membrane and is expressed in placenta, lung, liver, kidney, pancreas, spleen, thymus, prostate, testis, ovary, small intestine, colon, heart, epidermis, esophagus, brain and smooth and skeletal muscle. PNN is expressed strongly in melanoma metastasis lesions and advanced primary tumors. PNN as a transcriptional activator binds to the E-box 1 core sequence of the E-cadherin promoter gene. PNN is involved in the establishment and maintenance of epithelia cell-cell adhesion. PNN is a potential tumor suppressor for renal cell carcinoma. The calculated molecular weight of PNN is 82 kDa (native form), but the post-modified protein is 140 kDa (phospho form of isoform 1).

## Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 18266-1-AP (Pinin antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 18266-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed HeLa cells using Pinin antibody (18266-1-AP) at dilution of 1:200 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 18266-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed HeLa cells using Pinin antibody (18266-1-AP) at dilution of 1:600 and Multi-rAb CoraLite® Plus 488-Goat Anti-Rabbit Recombinant Secondary Antibody (H+L) (RGAR002), CL594-phalloidin (red). This data was developed using the same antibody clone with 18266-1-PBS in a different storage buffer formulation.

IP result of anti-Pinin (IP:18266-1-AP, 4ug; Detection:18266-1-AP 1:300) with HeLa cells lysate 520ug. This data was developed using the same antibody clone with 18266-1-PBS in a different storage buffer formulation.
