For Research Use Only

Progranulin/PGRN Polyclonal antibody Catalog Number: 18410-1-AP Featured Product 13 Publications

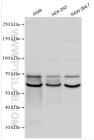

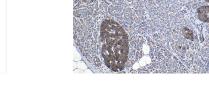

Basic Information	Catalog Number: 18410-1-AP	GenBank Accession Number: BC000324	Purification Method: Antigen affinity purification	
	Size:	GenelD (NCBI):	Recommended Dilutions:	
	850 ug/ml	2896	WB 1:500-1:1000	
	Source: Rabbit	UNIPROT ID: P28799	IHC 1:500-1:2000	
	Isotype:	Full Name:		
	IgG	granulin		
	Immunogen Catalog Number: AG13178	Calculated MW: 64 kDa		
		Observed MW: 60-70 kDa		
Applications	Tested Applications:	Positi	Positive Controls:	
	WB, IHC, ELISA	WB, IAC, ELISA WB: A549 cells, A431 cells, HeLa cells, HEK-293 cells, Cited Applications: PC-3 cells, human saliva, mouse heart tissue, mouse WB, IHC, IF lung tissue, rat brain tissue, U-937 cells, THP-1 cells,		
	Species Specificity:	RAW	RAW 264.7 cells	
	human, mouse, rat			
	Cited Species: human, mouse, rat		tissue, human lung cancer tissue, human ovary tumor tissue, human stomach cancer tissue	
	retrieval may be performed buffer pH 6.0			
Background Informatior	buffer pH 6.0 GRN, also known as PGRN or PCDU glycosylated 88 kDa form. PGRN i It has an anti-inflammatory effec fragments, called granulins (GRN: expressed, particularly in epithel have been reported in human can of several cancers. The recent diss frontotemporal lobar degeneration	GF, is a cysteine-rich protein of 68. s a unique growth factor that play: t and promotes cell proliferation. I s) by neutrophil proteases, a pro-ir ial cells, immune cells, neurons, a icers, and its expression is closely covery that mutations in the gene	When PCDGF is degraded to several 6-25 kDa nflammatory reaction occurs. PGRN is widely nd chondrocytes. High levels of PGRN expressio correlated with the development and metastas encoding for pro-granulin (GRN) cause ative diseases leading to dementia, has brough	
	buffer pH 6.0 GRN, also known as PGRN or PCD0 glycosylated 88 kDa form. PGRN i It has an anti-inflammatory effec fragments, called granulins (GRN expressed, particularly in epithel have been reported in human can of several cancers. The recent dis frontotemporal lobar degeneration renewed interest in progranulin a	GF, is a cysteine-rich protein of 68. s a unique growth factor that play: t and promotes cell proliferation. This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 18410-1-AP (Granulin antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.

Immunohistochemical analysis of paraffinembedded human pancreas cancer tissue slide using 18410-1-AP (Granulin antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded human pancreas cancer tissue slide using 18410-1-AP (Granulin antibody) at dilution of 1:1000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
