

For Research Use Only

# GABPB2 Polyclonal antibody

Catalog Number: 20870-1-AP

1 Publications

## Basic Information

Catalog Number:

20870-1-AP

Size:

900 ug/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG14933

GenBank Accession Number:

BC027033

GeneID (NCBI):

126626

UNIPROT ID:

Q8TAK5

Full Name:

GA binding protein transcription factor, beta subunit 2

Calculated MW:

448 aa, 49 kDa

Observed MW:

49 kDa

Purification Method:

Antigen affinity purification

Recommended Dilutions:

WB 1:500-1:1000

## Applications

Tested Applications:

WB, ELISA

Cited Applications:

IP

Species Specificity:

human, mouse, rat

Cited Species:

human

Positive Controls:

WB : Jurkat cells, A375 cells, HEK-293 cells, HeLa cells

## Background Information

GABPB2 is a subunit of the GA-binding protein (GABP) transcription factor, which is a heterodimeric complex. The GABP complex plays a role in the regulation of gene transcription by binding to specific DNA sequences. GABPB2 specifically contributes to the transactivation of target genes (PMID: 18628204). The protein is primarily located in the nucleus. It is ubiquitously expressed in various tissues, including testis, ovary, and others. Studies have shown that GABPB2 is dispensable for normal lymphocyte development but moderately affects B cell responses (PMID: 18628204). Mice deficient in GABPB2 exhibit increased B cell proliferation and antibody production in response to certain stimuli. The molecular weight of GABPB2 is 48 kDa.

## Notable Publications

Author	Pubmed ID	Journal	Application
Zhumei Shi	36270249	Mol Cell	IP

## Storage

Storage:

Store at -20°C. Stable for one year after shipment.

Storage Buffer:

PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

W: [ptgcn.com](http://ptgcn.com)

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Jurkat cells were subjected to SDS PAGE followed by western blot with 20870-1-AP (GABPB2 antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours.
