For Research Use Only

CCL18/MIP-4 Polyclonal antibody

Catalog Number:22303-1-AP 6 Publications

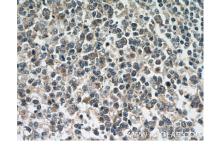

Basic Information	Catalog Number: 22303-1-AP	GenBank Accession Number: NM 002988	Purification Method: Antigen affinity purification	
	Size: 600 ug/ml	GenelD (NCBI): 6362	Recommended Dilutions: IHC 1:50-1:500	
	Source:	UNIPROT ID:		
	Rabbit	P55774		
	Isotype: Full Name: IgG chemokine (C-C motif) ligand 18 (pulmonary and activation-regulated) Calculated MW: 10 kDa			
Applications	Tested Applications: IHC, ELISA	Positive Controls:		
	Cited Applications: IHC, IF		IHC : human tonsillitis tissue, human heart tissue, human pancreas tissue	
	Species Specificity: human			
	Cited Species: human			
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0			
Background Information	CCL18 is a small cytokine belonging to the CC chemokine family. The effector functions that CCL18 exerts on the immune system is mainly on the adaptive immune system, while being produced and secreted mainly by innate immune system. Although the functions of CCL18 have been well studied in vitro, physiological effects of CCL18 vivo have been difficult to characterize because there is no murine analog of CCL18. Only recently has the recep for CCL18 been identified, and further characterization of CCL18 interactions with its receptor will lead to better understanding of the physiological role of CCL18 in humans.

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunohistochemical analysis of paraffinembedded human tonsillitis tissue slide using 22303-1-AP (CCL18/MIP-4 antibody at dilution of 1:50 (under 10x lens). Immunohistochemical analysis of paraffinembedded human tonsillitis tissue slide using 22303-1-AP (CCL18/MIP-4 antibody at dilution of 1:50 (under 40x lens).
