

# LALBA Polyclonal antibody

Catalog Number: 24871-1-AP

## Basic Information

## Catalog Number:

24871-1-AP

## Size:

350 µg/ml

## Source:

Rabbit

## Isotype:

IgG

## Immunogen Catalog Number:

AG21630

## GenBank Accession Number:

BC112316

## GeneID (NCBI):

3906

## UNIPROT ID:

P00709

## Full Name:

lactalbumin, alpha-

## Calculated MW:

142 aa, 16 kDa

## Observed MW:

13-16 kDa

## Purification Method:

Antigen affinity purification

## Recommended Dilutions:

WB 1:1000-1:4000

## Applications

## Tested Applications:

WB, ELISA

## Species Specificity:

human

## Positive Controls:

WB : human milk, human saliva

## Background Information

LALBA encodes alpha-lactalbumin which is secreted calcium metalloprotein, a principal protein of milk. As a monomer, LALBA strongly binds calcium and zinc ions and may possess bactericidal or antitumor activity. LALBA also could form a complex with the beta 1,4-galactosyltransferase to produce the enzyme lactose synthase, participating in the biosynthesis of lactose. Moreover, these proteins enable lactose synthase to produce lactose by transferring galactose moieties to glucose. Studies have demonstrated that LALBA-null transgenic mice showed lacking lactose in the milk and inadequate for feeding the pups (PMID:26304038; PMID:12216958).

## Storage

## Storage:

Store at -20°C. Stable for one year after shipment.

## Storage Buffer:

PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

human saliva were subjected to SDS PAGE followed by western blot with 24871-1-AP (LALBA antibody) at dilution of 1:600 incubated at room temperature for 1.5 hours.

human milk lysates were subjected to SDS PAGE followed by western blot with 24871-1-AP (LALBA antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours.
