For Research Use Only

Bcl2 Polyclonal antibody Catalog Number: 26593-1-AP Featured Product

Featured Product

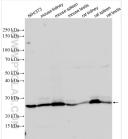

Basic Information	Catalog Number: 26593-1-AP	GenBank Accession Number: NM-009741		Purification Method: Antigen affinity purification	
	Concentration: 700 ug/ml	GeneID (NCBI): 12043 Full Name: B-cell leukemia/lymphoma 2		Recommended Dilutions: WB: 1:500-1:3000 IHC: 1:200-1:800 IF/ICC: 1:200-1:800 FC (Intra): 0.25 ug per 10^6 cells in a 100 μl suspension	
	Source: Rabbit				
	lsotype: Calculated MW: lgG 26 kDa		1W:		
	Immunogen Catalog Number: AG24260				
Applications	Tested Applications:		Positive Co	Positive Controls:	
	WB, IHC, IF/ICC, FC (Intra), ELISA Cited Applications: WB, IHC, IF, CoIP Species Specificity:		mouse hea tissue, mou	WB: NIH/3T3 cells, C2C12 cells, mouse brain tissue, mouse heart tissue, mouse testis tissue, mouse kidne tissue, mouse spleen tissue, rat spleen tissue, rat kidney tissue, rat testis tissue, mouse colon tissue	
	mouse, rat		-	IHC : mouse spleen tissue, mouse brain tissue	
	Cited Species: mouse, rat, pig, rabbit, canine, chicken, bovine, hamster, duck		IF/ICC : NI	IF/ICC : NIH/3T3 cells,	
			FC (Intra) :	FC (Intra) : NIH/3T3 cells,	
	Note-IHC: suggested antige TE buffer pH 9.0; (*) Alterno retrieval may be performed buffer pH 6.0	atively, antige			
	Bcl2 is a member of the B cell lymphoma 2 protein family. Members of this family regulate cell death in multiple cell types and can have either proapoptotic or antiapoptotic activities. The protein encoded by this gene inhibits mitochondrial-mediated apoptosis. This protein is an integral outer mitochondrial membrane protein that functions as part of signaling pathway that controls mitochondrial permeability in response to apoptotic stimuli. This protein may also play a role in neuron cell survival and autophagy. Abnormal expression and chromosomal translocations of this gene are associated with cancer progression in numerous tissues.				
Background Information	cell types and can have either pro mitochondrial-mediated apoptosi as part of signaling pathway that may also play a role in neuron cel	apoptotic or antia s. This protein is controls mitochor ll survival and au	apoptotic activities. Th an integral outer mito ndrial permeability in tophagy. Abnormal ex	e protein encoded by this gene inhibits chondrial membrane protein that functions response to apoptotic stimuli. This protein

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

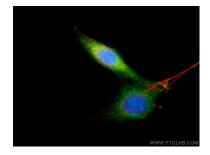

temperature for 1.5 hours.

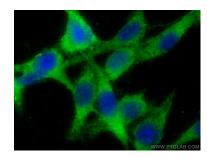

Various lysates were subjected to SDS PAGE Immun followed by western blot with 26593-1-AP (Bcl2 antibody) at dilution of 1:1500 incubated at room 1-AP (B

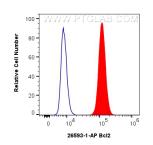

Immunohistochemical analysis of paraffinembedded mouse spleen tissue slide using 26593-1-AP (Bcl2 antibody) at dilution of 1:400 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunofluorescent analysis of (4% PFA) fixed NIH/3T3 cells using Bcl2 antibody (26593-1-AP) at dilution of 1:200 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L), CL594-Phalloidin (red).

Immunofluorescent analysis of (-20°C Ethanol) fixed NIH/3T3 cells using Bcl2 antibody (26593-1-AP) at dilution of 1:400 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) (SA00013-2).

1x10^6 NIH/3T3 cells were intracellularly stained with 0.25 ug Bcl2 Polyclonal antibody (26593-1-AP) and CoraLite®488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2)(red), or 0.25 ug Rabbit IgG control Rabbit PolyAb (30000-0-AP) (blue). Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C).
