

For Research Use Only

CENPB Polyclonal antibody, PBS Only

Catalog Number: 26738-1-PBS

Basic Information

Catalog Number: 26738-1-PBS	GenBank Accession Number: BC053847	Purification Method: Antigen affinity purification
Source: Rabbit	GeneID (NCBI): 1059	
Isotype: IgG	UNIPROT ID: P07199	
Immunogen Catalog Number: AG24967	Full Name: centromere protein B, 80kDa	
	Calculated MW: 65 kDa	
	Observed MW: 80 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, mouse

Background Information

Centromere protein B (CENPB), also known as major centromere autoantigen B, is an autoantigen protein of the cell nucleus. In mammalian centromeres CENPB plays a critical role in the organization of chromatin structure, but in the absence of CENPB some chromosomes use other redundant proteins to accomplish mitosis (PMID: 14963831). CENPB plays an important role in cell cycle regulation. CENPB is highly expressed in cancer cells helping in high rate proliferation. This antibody detects CENPB protein with a molecular weight of 80 kDa (PMID: 34547289, PMID: 29273057).

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 26738-1-AP (CENPB antibody) at dilution of 1:500 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 26738-1-PBS in a different storage buffer formulation.

WB result of CENPB antibody (26738-1-AP; 1:600; incubated at room temperature for 1.5 hours) with sh-Control and sh-CENPB transfected HeLa cells. This data was developed using the same antibody clone with 26738-1-PBS in a different storage buffer formulation.
