For Research Use Only

Fibrillin 1 Polyclonal antibody

Catalog Number: 26935-1-AP 1 Publications

Basic Information

Catalog Number: 26935-1-AP

Source:

GenBank Accession Number:

BC146854

P35555

GeneID (NCBI):

Rabbit 2200
Isotype: UNIPROT ID:

Immunogen Catalog Number: Full Name: fibrillin 1

Purification Method:

Antigen affinity purification Recommended Dilutions:

IHC: 1:400-1:1600

Positive Controls:

IHC: human breast cancer tissue,

Applications

Tested Applications:

IHC, ELISA

Cited Applications:

IHC

Species Specificity:

human

Cited Species:

human

Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate

buffer pH 6.0

Background Information

Fibrillin-1 belongs to the fibrillin family. Fibrillins are structural components of 10-12 nm extracellular calciumbinding microfibrils, which occur either in association with elastin or in elastin-free bundles. Fibrillin-1-containing microfibrils provide long-term force bearing structural support. Defects in Fibrillin-1 are a cause of Marfan syndrome (MFS), isolated ectopia lentis (EL), Weill-Marchesani syndrome autosomal dominant (ADWMS), Shprintzen-Goldberg craniosynostosis syndrome (SGS) or MASS syndrome. This antibody is specific to Fibrillin-1.

Storage

Storage:

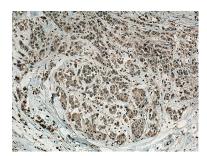

Store at -20°C. Stable for one year after shipment.

Storage Buffer:

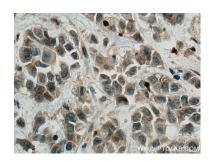

PBS with 0.02% sodium azide and 50% glycerol, pH7.3

Aliquoting is unnecessary for -20°C storage

Selected Validation Data

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 26935-1-AP (Fibrillin 1 antibody) at dilution of 1:800 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Immunohistochemical analysis of paraffinembedded human breast cancer tissue slide using 26935-1-AP (Fibrillin 1 antibody) at dilution of 1:800 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).
