

For Research Use Only

LARP6 Polyclonal antibody, PBS Only

Catalog Number: 27514-1-PBS

Basic Information

Catalog Number:

27514-1-PBS

Concentration:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG24354

GenBank Accession Number:

BC009446

GeneID (NCBI):

55323

UNIPROT ID:

Q9BR58

Full Name:

La ribonucleoprotein domain family, member 6

Calculated MW:

491 aa, 55 kDa

Observed MW:

70 kDa

Purification Method:

Antigen affinity purification

Applications

Tested Applications:

WB, IHC, Indirect ELISA

Species Specificity:

human, mouse, rat

Background Information

La-related protein 6 (LARP6), also known as Acheron or La ribonucleoprotein domain family member 6, is a protein encoded by the LARP6 gene in humans. It is a member of the LARP superfamily of RNA-binding proteins, which are post-transcriptional regulators. It is a phosphoprotein and eight phosphorylation sites have been identified. Six of these phosphorylation sites reside in the C-terminal domain of LARP6 (CTER). These sites are Ser348, Ser396, Ser409, Ser421, Ser447, and Ser451 (PMID: 27011170).

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 27514-1-AP (LARP6 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 27514-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded mouse heart tissue slide using 27514-1-AP (LARP6 antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 27514-1-PBS in a different storage buffer formulation.
