For Research Use Only

CRTC1 Polyclonal antibody

Catalog Number:27647-1-AP 2 Publications

	Catalog Number: 27647-1-AP	GenBank Accession Number: BC017075	Purification Method: Antigen affinity purification
	Size:	GenelD (NCBI):	Recommended Dilutions:
	900 ug/ml	23373	WB 1:500-1:2000
	Source: Rabbit	UNIPROT ID: Q6UUV9	IHC 1:250-1:1000
	Isotype: IgG	Full Name: CREB regulated transcription	
	Immunogen Catalog Number:	coactivator 1	
	AG26494	Calculated MW: 67 kDa	
		Observed MW: 68-75 kDa	
Applications	Tested Applications:	Positive Controls:	
	WB, IHC, ELISA	WB: Neuro	-2a cells, HeLa cells, HEK-293T cells
	Cited Applications: WB	IHC : human ovary cancer tissue,	
	Species Specificity: human, mouse		
	Cited Species: human, rat		
	Note-IHC: suggested antige TE buffer pH 9.0; (*) Altern retrieval may be performed buffer pH 6.0	atively, antigen	
	CRTC1, also named as Transducer of CREB protein 1, is a 634 amino acid protein, which belongs to the TORC family CRTC1 is highly expressed in adult and fetal brain and is low expressed in other tissues such as heart, spleen, lung skeletal muscle, salivary gland, ovary and kidney. CRTC1 localizes in Cytoplasm when is phosphorylated by SIK o AMPK and when sequestered by 14-3-3 proteins (PubMed:16817901). it translocates to the nucleus on Ser-151 dephosphorylation, instigated by a number of factors including calcium ion and cAMP levels. CRTC1 as a Transcriptional coactivator for CREB1 which activates transcription through both consensus and variant cAMP response element (CRE) sites. The calculated molecular weight of CRTC1 is 68 kDa, but the modified protein is about 70-75 kDa.		
Background Information	skeletal muscle, salivary gland, c AMPK and when sequestered by 1 dephosphorylation, instigated by Transcriptional coactivator for CR response element (CRE) sites. The	4-3-3 proteins (PubMed:16817901). it t a number of factors including calcium EB1 which activates transcription throu	ytoplasm when is phosphorylated by SIK ranslocates to the nucleus on Ser-151 ion and cAMP levels. CRTC1 as a ugh both consensus and variant cAMP

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunohistochemical analysis of paraffinembedded human ovary cancer tissue slide using 27647-1-AP (CRTC 1 antibody) at dilution of 1:500 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0).

Neuro-2a cells were subjected to SDS PAGE followed by western blot with 27647-1-AP (CRTC1 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours.
