For Research Use Only

Phospho-P62,SQSTM1 (Ser349) Polyclonal antibody

Catalog Number: 29503-1-AP

3 Publications

Basic Information

Catalog Number: 29503-1-AP Size: 500 µg/ml Source: Rabbit Isotype: GenBank Accession Number: BC017222 GeneID (NCBI): 8878 UNIPROT ID: Q13501 Full Name: sequestosome 1 Calculated MW: 48 kDa

Observed MW: 62 kDa Purification Method: Antigen affinity purification Recommended Dilutions: WB 1:2000-1:16000

Applications

Tested Applications: WB, ELISA
Cited Applications:

Cited App

WB

Species Specificity: Human, Mouse Cited Species: human **Positive Controls:**

WB: MG132 treated HeLa cells,

Background Information

Sequestosome 1 (SQSTM1/p62) is a multifunctional adaptor protein implicated in selective autophagy, cell signaling pathways, and tumorigenesis. It functions as a bridge between polyubiquitinated cargo and autophagosomes (PMID:16286508). SQSTM1 is at the cross-roads of several signaling pathways including Keap1-Nrf2 pathway, NF $_{\rm K}$ B pathway, NFE2L2/NRF2 pathway, mTOR pathway and Wnt pathway. Phosphorylation and/or de-phosphorylation of p62-Ser349 may participate in the regulation of both selective autophagy and oxidative stress response (PMID: 33397898).

Notable Publications

Author	Pubmed ID	Journal	Application
Hongrui Wang	36244448	J Biol Chem	WB

Storage

Storage:

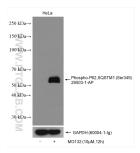

Store at -20°C. Stable for one year after shipment.

Storage Buffe

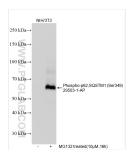

PBS with 0.02% sodium azide and 50% glycerol pH 7.3.

Aliquoting is unnecessary for -20°C storage

Selected Validation Data

Non-treated HeLa cells and MG132 treated HeLa cells were subjected to SDS PAGE followed by western blot with 29503-1-AP (Phospho-P62,SQSTM1 (Ser349) antibody) at dilution of 1:8000 incubated at room temperature for 1.5 hours. The membrane was stripped and re-blotted with GAPDH antibody as loading control.

Various lysates were subjected to SDS PAGE followed by western blot with 29503-1-AP (Phospho-P62,SQSTM1 (Ser349) antibody) at dilution of 1:8000 incubated at room temperature for 1.5 hours.
