

For Research Use Only

SIPA1L3 Polyclonal antibody, PBS Only

Catalog Number:30544-1-PBS

Basic Information

Catalog Number:

30544-1-PBS

Size:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG30750

GenBank Accession Number:

BC150620

GeneID (NCBI):

23094

UNIPROT ID:

O60292

Full Name:

signal-induced proliferation-associated 1 like 3

Observed MW:

195 kDa

Purification Method:

Antigen affinity purification

Applications

Tested Applications:

WB, IHC, IF/ICC, IP, Indirect ELISA

Species Specificity:

human, mouse, rat

Background Information

STEAP3 (Signal-induced proliferation-associated 1-like protein 3) is also named as KIAA0545 and SPAL3. STEAP3 is a member of the STEAP family and is composed of a six-transmembrane domain at the COOH-terminal domain and a cytoplasmic N-terminal oxidoreductase domain, which is essential for iron and copper uptake (PMID:16227996). STEAP3 contains a functional p53-binding site in its promoter and can be upregulated following p53 activation to enhance cell death in myeloid leukemia cell line and breast cancer cells (PMID: 18617898). By interacting with Nix, a pro-apoptotic Bcl-2 family member, and Myt1 kinase, a negative regulator of the G2/M transition, STEAP3 overexpression promotes apoptosis and inhibits G2/M transition in cell cycle progression (PMID: 12606722, PMID: 10504341).

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 30544-1-AP (SIPA1L3 antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 30544-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Ethanol) fixed HeLa cells using SIPA1L3 antibody (30544-1-AP) at dilution of 1:200 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 30544-1-PBS in a different storage buffer formulation.

IP result of anti-SIPA1L3 (IP:30544-1-AP, 4ug; Detection:30544-1-AP 1:3000) with HeLa cells lysate 1320 ug. This data was developed using the same antibody clone with 30544-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Ethanol) fixed HEK-293 cells using SIPA1L3 antibody (30544-1-AP) at dilution of 1:200 and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 30544-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human ovary cancer tissue slide using 30544-1-AP (SIPA1L3 antibody) at dilution of 1:200 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 30544-1-PBS in a different storage buffer formulation.
