

For Research Use Only

# DRAM Polyclonal antibody, PBS Only

Catalog Number: 31777-1-PBS

## Basic Information

Catalog Number:

31777-1-PBS

Size:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG33711

GenBank Accession Number:

BC018435

GeneID (NCBI):

55332

UNIPROT ID:

Q8N682

Full Name:

damage-regulated autophagy modulator

Calculated MW:

26 kDa

Observed MW:

33 kDa

Purification Method:

Antigen affinity Purification

## Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human

## Background Information

Damage-regulated autophagy modulator (DRAM) is a lysosomal membrane protein of autophagy that enriches in lung tissue and plays a central role in p53/TP53-mediated apoptosis (PMID: 16839881), which increased autophagy flux by promoting lysosomal acidification and protease activation (PMID: 23696801). It has 238 amino acids and six hydrophobic transmembrane regions. Reports show DRAM to be downregulated in squamous cancers, indicating a selective pressure to lose DRAM during tumor development (PMID: 17102582). Overexpression of DRAM1 can promote mitophagy and enhance mitochondrial function (PMID: 31204316).

## Storage

Storage:

Store at -80°C.

**The product is shipped with ice packs. Upon receipt, store it immediately at -80°C**

Storage Buffer:

PBS Only

W: [ptgcn.com](http://ptgcn.com)

**This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.**

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 31777-1-AP (DRAM antibody) at dilution of 1:1500 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 31777-1-PBS in a different storage buffer formulation.
