

For Research Use Only

GPR56 Polyclonal antibody, PBS Only

Catalog Number: 32532-1-PBS

Basic Information

Catalog Number:

32532-1-PBS

Concentration:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

GenBank Accession Number:

NM_001145771.2

GeneID (NCBI):

9289

UNIPROT ID:

Q9Y653

Full Name:

G protein-coupled receptor 56

Calculated MW:

78 kDa

Observed MW:

65-70 kDa

Purification Method:

Antigen affinity Purification

Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human

Background Information

GPR56, also known as ADGRG1, is a member of the adhesion G protein-coupled receptor (aGPCR) family. These receptors are characterized by an extended extracellular region with a GPCR autoproteolysis inducing (GAIN) domain (PMID: 37980704). GPR56 is widely expressed in various tissues, including the liver, muscle, tendon, neural cells, and cytotoxic lymphoid cells in humans. It plays crucial roles in multiple biological processes such as cell guidance, adhesion, and development.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 32532-1-AP (GPR56 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 32532-1-PBS in a different storage buffer formulation.
