

For Research Use Only

PGA4 Polyclonal antibody

Catalog Number:33764-1-AP

Basic Information

| | | |
|---|---|--|
| Catalog Number: 33764-1-AP | GenBank Accession Number: NM_001079808.3 | Purification Method: Antigen affinity Purification |
| Source: Rabbit | GeneID (NCBI): 643847 | Recommended Dilutions: WB: 1:2000-1:10000 |
| Isotype: IgG | UNIPROT ID: PODJD7 | |
| Immunogen Catalog Number: AG37827 | Full Name: pepsinogen 4, group I (pepsinogen A) | |
| | Calculated MW: 42kDa, 388aa | |
| | Observed MW: 42-45 kDa | |

Applications

| | |
|---|---|
| Tested Applications: WB, ELISA | Positive Controls: WB : pig stomach tissue, |
| Species Specificity: human, pig | |

Background Information

PGA4(Pepsinogen A4), also known as pepsinogen A, is a member of Peptidase A1 family. PGA4 is the precursor protein of digestive enzyme Pepsin, which is synthesized and secreted by the chief cells of gastric mucosa. Autocatalytic cleavage occurs under acidic conditions (pH 1-3), and about 41-44 amino acid fragments at the N-terminal are removed to form active pepsin. Serum pepsinogen level can be used as an important biomarker: screening index of atrophic gastritis, early diagnosis and screening of gastric cancer. The ratio (PGR) of pepsinogen I(PGI, mainly PGA) to pepsinogen II(PGII) is an important parameter to evaluate the function of gastric mucosa. The observed molecular weight is 42-45 kDa.

Storage

Storage:
Store at -20°C. Stable for one year after shipment.
Storage Buffer:
PBS with 0.02% sodium azide and 50% glycerol, pH7.3
Aliquoting is unnecessary for -20°C storage

For technical support and original validation data for this product please contact:

W: ptgcn.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 33764-1-AP (PGA4 antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours.
