

For Research Use Only

TRMT1L/C1orf25 Polyclonal antibody, PBS Only

Catalog Number:33811-1-PBS

Basic Information

Catalog Number: 33811-1-PBS	GenBank Accession Number: BC045535	Purification Method: Antigen affinity Purification
Source: Rabbit	GeneID (NCBI): 81627	
Isotype: IgG	UNIPROT ID: Q7Z2T5	
Immunogen Catalog Number: AG36582	Full Name: chromosome 1 open reading frame 25	
	Observed MW: 81 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, mouse, rat

Background Information

TRMT1L (tRNA methyltransferase 1-like), formerly known as C1orf25, is a vertebrate paralog of the evolutionarily conserved TRMT1 (tRNA methyltransferase 1). Knockout of TRMT1L in mice resulted in significant motor coordination impairment and abnormal exploratory behavior, indicating that its activity is also related to neural function (PMID: 17198746). Human TRMT1L catalyzes m2 and 2G in tyrosine tRNAs and simultaneously regulates acp3U in tRNAs (PMID: 39786990).

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 33811-1-AP (TRMT1L/C1orf25 antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 33811-1-PBS in a different storage buffer formulation.
