

For Research Use Only

ZAN Polyclonal antibody, PBS Only

Catalog Number: 33956-1-PBS

Basic Information

Catalog Number:

33956-1-PBS

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG35843

GenBank Accession Number:

NM_003386

GeneID (NCBI):

7455

UNIPROT ID:

Q9Y493

Full Name:

zonadhesin

Calculated MW:

305kDa

Observed MW:

230 kDa

Purification Method:

Antigen affinity Purification

Applications

Tested Applications:

WB, IP, Indirect ELISA

Species Specificity:

human, mouse

Background Information

ZAN (Zonadhesin) is a sperm-specific type-I transmembrane glycoprotein essential for species-restricted binding between spermatozoa and the egg's zona pellucida. First isolated from boar sperm, it is expressed solely in post-meiotic male germ cells (early spermatids) and localises to the apical segment of the sperm head.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 33956-1-AP (ZAN antibody) at dilution of 1:800 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 33956-1-PBS in a different storage buffer formulation.

IP result of anti-ZAN (IP:33956-1-AP, 4ug; Detection:33956-1-AP 1:800) with mouse testis tissue lysate 1520 ug. This data was developed using the same antibody clone with 33956-1-PBS in a different storage buffer formulation.
