For Research Use Only

STX1A Polyclonal antibody

Catalog Number:55164-1-AP

Catalog Number: 55164-1-AP	GenBank Accession Number: NM_004603	Purification Method: Antigen affinity purification	
Size: 350 ug/ml	Genel D (NCBI): 6804	Recommended Dilutions: WB 1:1000-1:6000	
Source: Rabbit	UNIPROT ID: Q16623		
lsotype: IgG	Full Name: syntaxin 1A (brain)		
	Calculated MW: 33 kDa		
	Observed MW: 35 kDa		
Tested Applications: WB, ELISA		Positive Controls: WB : human plasma,	
Species Specificity: human			
conjunction with other SNAF in diverse vesicular transpor (STX1A) and 1B (STX1B), two fusion during neurotransmit variety of neurological dises	Syntaxins are a family of transmembrane proteins that belong to the SNARE complex (PMID: 11737951). In conjunction with other SNAREs and with the cytoplasmic NSF and SNAP proteins, syntaxins mediate vesicle fusion in diverse vesicular transport processes along the exocytic and endocytic pathways (PMID: 11737951). Syntaxin 1A (STX1A) and 1B (STX1B), two closely related isoforms of syntaxin 1, are involved in synaptic vesicle docking and fusion during neurotransmitter release (PMID: 7690687; 1321498; 18691641). Syntaxin 1A is associated with a variety of neurological diseases, including epilepsy, attention deficit hyperactivity disorder (ADHD), migraine, etc (PMID: 26918652; 25445064; 22250207). This antibody recognizes human STX1A.		
Storage: Store at -20°C. Stable for one Storage Buffer: PBS with 0.02% sodium azic			
	55164-1-AP Size: 350 ug/ml Source: Rabbit Isotype: IgG Tested Applications: WB, ELISA Species Specificity: human Syntaxins are a family of tra conjunction with other SNAF in diverse vesicular transpoi (STX1A) and 1B (STX1B), two fusion during neurotransmit variety of neurological dise: (PMID: 26918652; 25445064 Storage: Storage Buffer:	55164-1-AP NM_004603 Size: GeneID (NCBI): 350 ug/ml 6804 Source: UNIPROT ID: Rabbit Q16623 Isotype: Full Name: IgG syntaxin 1A (brain) Calculated MW: 33 kDa Observed MW: 35 kDa Tested Applications: Positive WB, ELISA WB : hum Species Specificity: WB : hum human Syntaxins are a family of transmembrane proteins that belong to the S Conjunction with other SNAREs and with the cytoplasmic NSF and SNAI in diverse vesicular transport processes along the exocytic and endocy (STX1A) and 1B (STX1B), two closely related isoforms of syntaxin 1, are fusion during neurotransmitter release (PMID: 7690687; 1321498; 1869 variety of neurological diseases, including epilepsy, attention deficit f (PMID: 26918652; 25445064; 22250207). This antibody recognizes hum Storage: Storage Store at -20°C. Stable for one year after shipment. Storage Buffer:

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

human plasma was subjected to SDS PAGE followed by western blot with 55164-1-AP (STX1A antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours.
