

For Research Use Only

MASP2 Polyclonal antibody, PBS Only

Catalog Number: 55252-1-PBS

Basic Information

Catalog Number:
55252-1-PBS

Source:
Rabbit

Isotype:
IgG

GenBank Accession Number:
NM_006610

GeneID (NCBI):
10747

UNIPROT ID:
O00187

Full Name:
mannan-binding lectin serine
peptidase 2

Calculated MW:
76 kDa

Observed MW:
68 kDa

Purification Method:

Antigen affinity purification

Applications

Tested Applications:
WB, IHC, Indirect ELISA

Species Specificity:
human, mouse

Background Information

Mannan-binding lectin serine protease 2 (MASP2) is a serum protease that plays an important role in the activation of the complement system via mannose-binding lectin. MASP2 contains a 15-amino acid signal peptide, the 3 amino acids essential for the active center of a serine protease, and calcium-binding residues in the epidermal growth factor like domain.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 55252-1-AP (MASP2 antibody) at dilution of 1:1000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 55252-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human liver tissue slide using 55252-1-AP (MASP2 antibody) at dilution of 1:200 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 55252-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human liver tissue slide using 55252-1-AP (MASP2 antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 55252-1-PBS in a different storage buffer formulation.
