#### For Research Use Only

# Anti-Mouse CD11c (N418)

Catalog Number:65130-1-lg 1 Publications

**Basic Information** 

Catalog Number: 65130-1-lg

Concentration: 500ug, 0.5 mg/ml

Source:

Armenian Hamster
Isotype:

GenBank Accession Number:

BC167225 GeneID (NCBI): 16411

UNIPROT ID: Q9QXH4

Full Name: integrin alpha X

Purification Method: Protein A purification

CloneNo.: N418

**Applications** 

**Tested Applications:** 

FC

Cited Applications:

FC

Species Specificity:

Mouse

Cited Species:

mouse

### **Background Information**

Integrins are cell adhesion receptors that are heterodimers composed of non-covalently associated  $\alpha$  and  $\beta$  subunits (PMID: 9779984). CD11c, also known as integrin  $\alpha$  X, is a type I transmembrane glycoprotein present on a variety of cells, including monocytes/macrophages, granulocytes, a subset of B cells, NK cells and dendritic cells (PMID: 2897326; 1680915; 1694698; 17389580). As a result of its high level of expression on most dendritic cells, CD11c is typically considered to be a marker of conventional dendritic cells (PMID: 27119555). CD11c forms an  $\alpha$  /  $\beta$  heterodimer with CD18 (integrin  $\beta$  2). CD11c/CD18 acts a receptor for fibrinogen and is important in monocyte adhesion and chemotaxis (PMID: 1671533).

#### **Notable Publications**

Author	Pubmed ID	Journal	Application
Xianghui Li	39525955	MedComm (2020)	FC

Storage

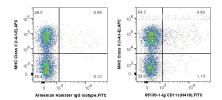

Storage:

Store at 2-8°C. Stable for one year after shipment.

Storage Buffer

PBS with 0.09% sodium azide, pH7.3

## Selected Validation Data

1X10^6 C57BL/6 mouse splenocytes were surface co-stained with APC Anti-Mouse MHC Class II (I-A/I-E) (M5/114.15.2) and 0.5 ug Anti-Mouse CD11c (65130-1-Ig, Clone:N418) and FITC anti-Armenian Hamster IgG Antibody at dilution 1:100, or 0.5 ug Armenian Hamster IgG Isotype Control (PIP) and FITC anti-Armenian Hamster IgG Antibody at dilution 1:100. Cells were not fixed.
