For Research Use Only

## Anti-Human CD44 (F10-44-2) Rabbit IgG Recombinant Antibody, PBS Only

**Purification Method:** 

Affinity purification

CloneNo.:

F10-44-2

Catalog Number: 65502-1-PBS

**Basic Information** 

Catalog Number:

65502-1-PBS

Size:

1mg, 1 mg/ml Source:

Rabbit Isotype:

IgG

igu

GenBank Accession Number:

BC004372 GeneID (NCBI):

960

ENSEMBL Gene ID: ENSG00000026508

Full Name:

CD44 molecule (Indian blood group)

Calculated MW: 742 aa, 82 kDa

**Applications** 

**Tested Applications:** 

FC

Species Specificity:

Human

**Background Information** 

CD44 is a type I transmembrane glycoprotein expressed on embryonic stem cells and in various levels on other cell types including connective tissues and bone marrow. CD44 expression is also upregulated in subpopulations of cancer cells and is recognized as a molecular marker for cancer stem cells (PMID: 29747682). It is a cell-surface receptor that mediates cell-cell and cell-matrix interactions through its affinity for hyaluronic acid (HA) and possibly also through its affinity for other ligands (PMID: 10694938). Adhesion with HA plays an important role in cell migration, tumor growth and progression. CD44 is also involved in lymphocyte activation, recirculation and homing, and in hematopoiesis.

Storage

Storage:

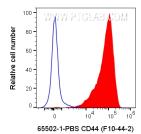

Store at -80°C. Stable for one year after shipment.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C  $\,$ 

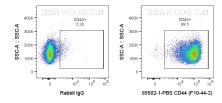

Storage Buffer:

PBS only

## **Selected Validation Data**

1x10^6 human PBMCs were surface stained with 0.1 ug Anti-Human CD44 Rabbit Recombinant Antibody (65502-1-PBS, Clone:F10-44-2) or Rabbit IgG control Rabbit PolyAb and Coralite®647-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) at dilution 1:1000. Cells were not fixed. Lymphocytes were gated.
