For Research Use Only

INS Monoclonal antibody Catalog Number:66198-1-lg 49 Publications

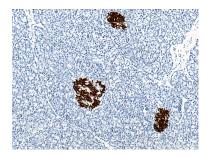

Basic Information	Catalog Number: 66198-1-Ig	GenBank Accession Number: BC005255		Purification Method: Protein A purification	
	Concentration: 1000 µg/ml	Genel D (NCBI): 3630		CloneNo.: 4B6A7	
	Source: Mouse	UNIPROT ID: P01308		Recommended Dilutions: IHC 1:1000-1:10000	
	lsotype: lgG2a	Full Name: INS	rutt name.		-P 1:50-1:500
	Immunogen Catalog Number:Calculated MW:AG8630110 aa, 12 kDa				
Applications	Tested Applications: Positive (Controls:	
	Cited Applications: rat pancreas			n pancreas tissue, mouse pancreas tissue, Is tissue	
	WB, IHC, IF, Cell treatment IF-P : human pancreas tissue, mouse pance Species Specificity: human, mouse, rat				ouse pancreas tissue
	Cited Species: human, mouse, rat				
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0				
Background Information	INS is a peptide hormone, produced by beta cells of the pancreas, and is central to regulating carbohydrate and fat metabolism in the body. It participates in glucose utilization, protein synthesis and in the formation and storage of neutral lipids. INS is synthesized as a precursor molecule, pro-INS, which is processed prior to secretion. A- and B-peptides are joined together by a disulfide bond to form INS, while the central portion of the precursor molecule is cleaved and released as the C-peptide. Defects in INS results in type 1 diabetes mellitus. INS may also exist 36 kDa form corresponding to the hexameric INS form.				
5	cleaved and released as the C-pe	ptide. Defects in INS		betes mellitus. INS

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

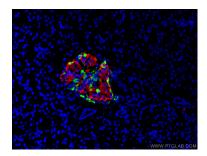

Selected Validation Data

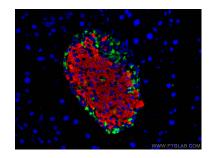

Immunohistochemical analysis of paraffinembedded human pancreas tissue slide using 66198-1-1g (Insulin Antibody) at dilution of 1:5000 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human pancreas tissue slide using 66198-1-1g (Insulin Antibody) at dilution of 1:5000 (under 40x lens).

Immunofluorescent analysis of (4% PFA) fixed human pancreas tissue using 66198-1-1g (Insulin antibody) at dilution of 1:100 and Coralite594-Conjugated Goat Anti-Mouse IgG(H+L). The α cells of pancreas was labelled in green with 15954-1-AP (Glucagon antibody).

Immunofluorescent analysis of (4% PFA) fixed mouse pancreas tissue using INS antibody (66198-1-Ig, Clone: 4B6A7) at dilution of 1:400 and CoraLite®594-Conjugated Goat Anti-Mouse IgG(H+L), Somatostatin antibody (24496-1-AP, green).
