

For Research Use Only

SYK Monoclonal antibody, PBS Only

Catalog Number: 66721-1-PBS

Featured Product

Basic Information

Catalog Number:

66721-1-PBS

Size:

1mg/ml

Source:

Mouse

Isotype:

IgG2b

Immunogen Catalog Number:

AG17654

GenBank Accession Number:

BC001645

GeneID (NCBI):

6850

ENSEMBL Gene ID:

ENSG00000165025

UNIPROT ID:

P43405

Full Name:

spleen tyrosine kinase

Calculated MW:

635 aa, 72 kDa

Observed MW:

70-75 kDa

Purification Method:

Protein A purification

CloneNo.:

4C4A12

Applications

Tested Applications:

WB, IHC, IF-P, IP, ELISA

Species Specificity:

human

Background Information

SYK(spleen tyrosine kinase) is a key regulator of signal transduction events,apoptosis and orderly cell cycle progression in B-lineage lymphoid cells. Although SYK has not been linked to a human disease, defective expression of the closely related T-cell tyrosine kinase ZAP-70 has been associated with severe combined immunodeficiency(PMID:11494125). This protein has 2 isoforms produced by alternative splicing. SYK also promotes liver fibrosis by activation of hepatic stellate cells and acts as a biomarker for human hepatocellular carcinoma. (PMID: 29537660)

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 66721-1-Ig (SYK antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed human tonsillitis tissue using 66721-1-Ig (SYK antibody), at dilution of 1:100 and CoraLite®488-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L). This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.

WB result of SYK antibody (66721-1-Ig; 1:10000; incubated at room temperature for 1.5 hours) with sh-Control and sh-SYK transfected Raji cells. This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.

THP-1 (WT and SYK KO) lysates prepared with RIPA buffer, 30 μ g protein loaded. 66721-1-Ig incubated at 1:500 at 4°C overnight in 5% BSA in TBST. Ponceau stained transfers shown on right. Data provided by YCharOS, an open science company with a mission to validate commercial antibodies to improve scientific reproducibility and transparency. This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.

MDA-MB-231 lysates prepared and IP of SYK performed using 2.0 μ g of 66721-1-Ig coupled to protein G- Sepharose beads. The Ponceau stained transfers of each blot are shown. Data provided by YCharOS, an open science company with a mission to validate commercial antibodies to improve scientific reproducibility and transparency. This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human tonsillitis tissue slide using 66721-1-Ig (SYK antibody) at dilution of 1:1000 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 66721-1-PBS in a different storage buffer formulation.
