For Research Use Only

Caspase 7 Monoclonal antibody, PBS Only

Size: 1 mg/ml

Purification Method:

Protein A purification

CloneNo.:

3C9H4

Catalog Number: 67956-1-PBS

Basic Information

Catalog Number: 67956-1-PBS

BC015799

GeneID (NCBI):

GenBank Accession Number:

Source: UNIPROT ID: Mouse P55210
Isotype: Full Name:

IgG2a caspase 7, apoptosis-related cysteine

Immunogen Catalog Number: peptidase
AG27601 Calculated MW:

303 aa, 34 kDa Observed MW: 35 kDa

Applications

Tested Applications: WB,Indirect ELISA,IHC Species Specificity:

Human, mouse, rat

Background Information

Caspase 7(CASP7), like caspases 3 and 6, contains a short prodomain and, upon apoptotic induction, the 35 kDa proform is converted into a 32 kDa intermediate or preactive form which is further processed into two active subunits consisting of the p20 or large (18 kDa) subunit and the p10 or small (11 kDa) subunit and it is present in the brain, which is up-regulated and activated after traumatic injury (PMID:15953353). Caspase-7 is classified as a member of the subgroup of cysteine proteases most related to the Caenorhabditis elegans factor CED-3, which also includes caspase-3, -6, and -9(PMID:9426061). The protein is involved in the activation cascade of caspases responsible for apoptosis execution.

Storage

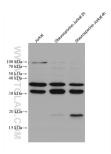

Storage:

Store at -80°C.

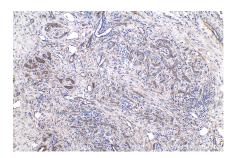

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer: PBS Only

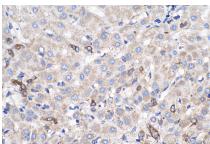

Selected Validation Data

Jurkat cells were subjected to SDS PAGE followed by western blot with 67956-1-Ig (Caspase 7 antibody) at dilution of 1:20000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.

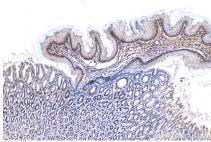

Immunohistochemical analysis of paraffinembedded human liver cancer tissue slide using 67956-1-Ig (Caspase 7 antibody) at dilution of 1:500 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.

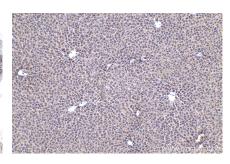

Immunohistochemical analysis of paraffinembedded human liver cancer tissue slide using 67956-1-lg (Caspase 7 antibody) at dilution of 1:1000 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.

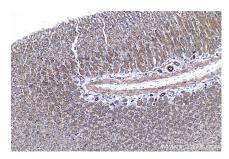

Immunohistochemical analysis of paraffinembedded mouse liver tissue slide using 67956-1-Ig (Caspase 7 antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.

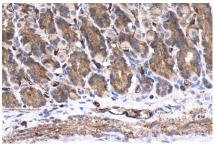

Immunohistochemical analysis of paraffinembedded mouse stomach tissue slide using 67956-1-lg (Caspase 7 antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffinembedded rat liver tissue slide using 67956-1-lg (Caspase 7 antibody) at dilution of 1:1000 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 67956-1-PBS in a different storage buffer formulation.
