

FOXC2 Monoclonal antibody, PBS Only

Catalog Number: 68384-1-PBS

Basic Information

Catalog Number:

68384-1-PBS

Size:

1 mg/ml

Source:

Mouse

Isotype:

IgG2b

Immunogen Catalog Number:

AG19378

GenBank Accession Number:

BC113437

GeneID (NCBI):

2303

UNIPROT ID:

Q99958

Full Name:forkhead box C2 (MFH-1,
mesenchyme forkhead 1)**Calculated MW:**

501 aa, 54 kDa

Observed MW:

56 kDa

Purification Method:

Protein A purification

CloneNo.:

3E3E1

Applications

Tested Applications:

WB, IHC, ELISA

Species Specificity:

Human, Rat, Pig

Background Information

Forkhead box protein C2 (FOXC2) also known as forkhead-related protein FKHL14 (FKHL14), transcription factor FKHL14, or mesenchyme fork head protein 1 (MFH1) is a protein that in humans is encoded by the FOXC2 gene. FOXC2 is a member of the fork head box (FOX) family of transcription factors. FOX transcription factors are expressed during development and are associated with a number of cellular and developmental differentiation processes. FOXC2 is required during early development of the kidneys, including differentiation of podocytes and maturation of the glomerular basement membrane. It is also involved in the early development of the heart. FOXC2 is also involved in cancer metastases. In particular, expression of FOXC2 is induced when epithelial cells undergo an epithelial-mesenchymal transition (EMT) and become mesenchymal looking cells. (PMID: 8674414 9169153 19935708)

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C**Storage Buffer:**

PBS only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunohistochemical analysis of paraffin-embedded human breast cancer tissue slide using 68384-1-Ig (FOXC2 antibody) at dilution of 1:200 (under 10x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 68384-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human breast cancer tissue slide using 68384-1-Ig (FOXC2 antibody) at dilution of 1:200 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 68384-1-PBS in a different storage buffer formulation.

hTERT-RPE1 cells were subjected to SDS PAGE followed by western blot with 68384-1-Ig (FOXC2 antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 68384-1-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 68384-1-Ig (FOXC2 antibody) at dilution of 1:3000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 68384-1-PBS in a different storage buffer formulation.
