

For Research Use Only

# PEX14 (human specific) Recombinant antibody, PBS Only

Catalog Number: 80196-1-PBS

## Basic Information

Catalog Number: 80196-1-PBS	GenBank Accession Number: BC006327	Purification Method: Protein A purification
Size: 1mg/ml	GeneID (NCBI): 5195	CloneNo.: 6K5
Source: Rabbit	UNIPROT ID: O75381	
Isotype: IgG	Full Name: peroxisomal biogenesis factor 14	
Immunogen Catalog Number: AG0932	Calculated MW: 41 kDa	
	Observed MW: 57 kDa	

## Applications

**Tested Applications:**  
WB, IHC, IF/ICC, FC (Intra), Indirect ELISA

**Species Specificity:**  
human

## Background Information

PEX14 (peroxisomal biogenesis factor 14) is a peroxisomal membrane protein that is essential for protein docking onto the peroxisomes. It is a central component of the peroxisomal matrix protein import machinery and interacts with PEX5 and PEX19. PEX14 is ubiquitously expressed and defects in PEX14 are the cause of peroxisome biogenesis disorder complementation group K (PBD-CGK). This antibody can be used to detect endogenous PEX14 with an apparent molecular weight of 57 kDa (PMID: 16449325; 9653144) and recognize peroxisomal structures in human, monkey and mouse cells.

This antibody is specific to human PEX14. It can't detect mouse or rat PEX14.

## Storage

**Storage:**  
Store at -80°C.  
**The product is shipped with ice packs. Upon receipt, store it immediately at -80°C**

**Storage Buffer:**  
PBS Only

**This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.**

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 80196-1-RR (PEX14 (human specific) antibody) at dilution of 1:7000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 80196-1-PBS in a different storage buffer formulation.

1X10<sup>6</sup> HeLa cells were intracellularly stained with 0.4 ug Anti-Human PEX14 (human specific) (80196-1-RR, Clone:6K5) and CoraLite®488-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) at dilution 1:1000 (red), or 0.4 ug Isotype Control. Cells were fixed with 4% PFA and permeabilized with Flow Cytometry Perm Buffer (PF00011-C). This data was developed using the same antibody clone with 80196-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 80196-1-RR against PEX14 (human specific) were performed. The affinity constant is 0.613 nM.
