

For Research Use Only

GAPDH (Human Specific) Recombinant antibody, PBS Only

Catalog Number: 80570-1-PBS

Basic Information

Catalog Number: 80570-1-PBS	GenBank Accession Number: BC004109	Purification Method: Protein A purification
Size: 1 mg/ml	GeneID (NCBI): 2597	CloneNo.: 2G21
Source: Rabbit	UNIPROT ID: P04406	
Isotype: IgG	Full Name: glyceraldehyde-3-phosphate dehydrogenase	
Immunogen Catalog Number: AG0766	Calculated MW: 36 kDa	

Applications

Tested Applications:
WB, Indirect ELISA, IHC, IF

Species Specificity:
Human

Background Information

Glyceraldehyde-3-phosphate dehydrogenase (GAPDH) catalyzes the phosphorylation of glyceraldehyde-3-phosphate during glycolysis. GAPDH participates in nuclear events including transcription, binding RNA, RNA transportation, DNA replication, DNA repair and apoptosis. Being stably and constitutively expressed at high levels in most tissues and cells, GAPDH is considered a housekeeping protein. It is widely used as a control for RT-PCR and also loading control in electrophoresis and Western blotting. GAPDH is normally expressed in cellular cytoplasm or membrane, but can occasionally translocate to the nucleus after the addition of post-translational modifications such as S-nitrosylation. This antibody is raised against full length GAPDH of human origin. It can recognize the 36 kDa GAPDH protein in most cells/tissues. In addition, a band below 36 kDa can always be detected as the isoform or spliced product of GAPDH (PMID: 23885286, 23877755, 19368702). Please note that some physiological factors, such as hypoxia and diabetes, increase GAPDH expression in certain cell types. For murine tissue samples, conjugated mouse antibody HRP-60004 and rabbit antibody 10494-1-AP are preferable. 80570-1-RR is human specific.

Storage

Storage:
Store at -80°C.

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Immunofluorescent analysis of (-20°C Methanol) fixed HeLa cells using GAPDH (Human Specific) antibody (80570-1-RR, Clone: 2G21) at dilution of 1:400 and CoraLite®594-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L). This data was developed using the same antibody clone with 80570-1-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 80570-1-RR (GAPDH antibody) at dilution of 1:8000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 80570-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded human liver cancer tissue slide using 80570-1-RR (GAPDH (Human Specific) antibody) at dilution of 1:800 (under 40x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 80570-1-PBS in a different storage buffer formulation.
