

For Research Use Only

# IKKB Recombinant monoclonal antibody, PBS Only

Catalog Number: 81370-2-PBS

## Basic Information

<b>Catalog Number:</b> 81370-2-PBS	<b>GenBank Accession Number:</b> BC006231	<b>Purification Method:</b> Protein A purification
<b>Source:</b> Rabbit	<b>GeneID (NCBI):</b> 3551	<b>CloneNo.:</b> 250538G7
<b>Isotype:</b> IgG	<b>UNIPROT ID:</b> O14920	
<b>Immunogen Catalog Number:</b> AG8191	<b>Full Name:</b> inhibitor of kappa light polypeptide gene enhancer in B-cells, kinase beta	
	<b>Calculated MW:</b> 756aa,81 kDa; 256aa,29 kDa	
	<b>Observed MW:</b> 80-85 kDa	

## Applications

**Tested Applications:**  
WB, Indirect ELISA

**Species Specificity:**  
human, mouse, rat

## Background Information

IKKB, also named as IKK $\beta$ , IKK2, NFKB1B and IKK-B, belongs to the protein kinase superfamily, Ser/Thr protein kinase family and I-kappa-B kinase subfamily. IKKB is a Serine kinase that plays an essential role in the NF-kappa-B signaling pathway. It acts as part of the canonical IKK complex in the conventional pathway of NF-kappa-B activation and phosphorylates inhibitors of NF-kappa-B on 2 critical serine residues. In addition to the NF-kappa-B inhibitors, IKKB phosphorylates several other components of the signaling pathway including NEMO/IKBK $\gamma$ , NF-kappa-B subunits RELA and NFKB1, as well as IKK-related kinases TBK1 and IKBKE. It also phosphorylates other substrates including NCOA3, BCL10 and IRS1. Within the nucleus, IKKB acts as an adapter protein for NFKBIA degradation in UV-induced NF-kappa-B activation.

## Storage

**Storage:**  
Store at -80°C.  
**The product is shipped with ice packs. Upon receipt, store it immediately at -80°C**

**Storage Buffer:**  
PBS only, pH7.3

**This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.**

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 81370-2-RR (IKKB antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 81370-2-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 81370-2-RR against Human IKKB were performed. The affinity constant is below 1 pM.
