

For Research Use Only

GLUT1 Recombinant antibody, PBS Only

Catalog Number: 81463-1-PBS

Basic Information

Catalog Number:

81463-1-PBS

Size:

1mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG16282

GenBank Accession Number:

BC121804

GeneID (NCBI):

6513

UNIPROT ID:

P11166

Full Name:

solute carrier family 2 (facilitated glucose transporter), member 1

Calculated MW:

492 aa, 54 kDa

Observed MW:

45-55 kDa

Purification Method:

Protein A purification

CloneNo.:

6F14

Applications

Tested Applications:

WB, IHC, Indirect ELISA

Species Specificity:

human

Background Information

GLUT1, also known as SLC2A1, is a ubiquitously expressed glucose transporter and is responsible for the basal level of glucose uptake in most cell types. Human erythrocytes express the highest level of GLUT1. Defects in SLC2A1 are the cause of GLUT1 deficiency syndrome type 1 and type 2. High expression of GLUT1 has been reported to be a reliable immunohistochemical marker for juvenile hemangiomas. GLUT1 protein may appear as two or more distinct forms among 43 kDa to 55 kDa due to the different glycosylation states. And the conversion of the highly glycosylated form of GLUT1 to a less glycosylated form has been reported to correlate with differentiation (PMID: 8263524, 23302780).

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 81463-1-RR (SLC2A1, GLUT1 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 81463-1-PBS in a different storage buffer formulation.

Immunohistochemical analysis of paraffin-embedded skin cancer slide using 81463-1-RR (GLUT1 antibody) at dilution of 1:2000 (under 20x lens). Heat mediated antigen retrieval with Tris-EDTA buffer (pH 9.0). This data was developed using the same antibody clone with 81463-1-PBS in a different storage buffer formulation.
