

For Research Use Only

CTHRC1 Recombinant antibody, PBS Only

Catalog Number: 83629-1-PBS

Basic Information

Catalog Number:

83629-1-PBS

Concentration:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG9812

GenBank Accession Number:

BC014245

GeneID (NCBI):

115908

UNIPROT ID:

Q96CG8

Full Name:

collagen triple helix repeat
containing 1

Calculated MW:

243 aa, 26 kDa

Observed MW:

25 kDa

Purification Method:

Protein A purification

CloneNo.:

240442E1

Applications

Tested Applications:

WB, FC (Intra), ELISA

Species Specificity:

human

Background Information

Collagen triple helix repeat-containing protein 1 (CTHRC1), also known as protein NMTC1, is a glycosylated secreted protein. CTHRC1 was identified as a novel molecular in injured and diseased arteries where it may contribute to vascular remodeling by limiting collagen matrix deposition and promoting cell migration (PMID: 15618538). It has been reported that CTHRC1 is a positive regulator of osteoblastic bone formation (PMID: 18779865). Besides, studies reveal that CTHRC1 expression is implicated in various malignancies, including hepatocellular carcinoma, gastric carcinoma, colon cancer, and lung cancer (PMID: 23922981; 24504172; 24746208; 25139095).

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

A375 cells were subjected to SDS PAGE followed by western blot with 83629-1-RR (CTHRC1 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 83629-1-PBS in a different storage buffer formulation.

1x10⁶ A375 cells were intracellularly stained with 0.25 ug CTHRC1 Recombinant antibody (83629-1-RR, Clone:240442E1) and APC-Conjugated AffiniPure Goat Anti-Rabbit IgG(H+L) (red), or 0.25 ug Isotype Control (blue). Cells were fixed and permeabilized with Transcription Factor Staining Buffer Kit (PF00011). This data was developed using the same antibody clone with 83629-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 83629-1-RR against Human CTHRC1 were performed. The affinity constant is 72.9 pM.
