

For Research Use Only

Mouse CD40L/CD154 Recombinant antibody, PBS Only

Catalog Number: 83884-3-PBS

Basic Information

Catalog Number: 83884-3-PBS	GenBank Accession Number: NM_011616.2	Purification Method: Protein A purification
Concentration: 1 mg/ml	GeneID (NCBI): 21947	CloneNo.: 240743F5
Source: Rabbit	UNIPROT ID: P27548	
Isotype: IgG	Full Name: CD40 ligand	
Immunogen Catalog Number: EG0990	Calculated MW: 29 kDa	
	Observed MW: 32 kDa	

Applications

Tested Applications:
WB, ELISA

Species Specificity:
mouse

Background Information

The CD40 ligand (CD40L, TRAP, CD154), a member of the TNF superfamily of ligands, is expressed as either a 33 kDa transmembrane homologue or an 18 kDa soluble form (sCD154). CD40L is primarily expressed on activated CD4+ T cells and a small proportion of CD8+ T cells and platelets. It binds to CD40 on antigen-presenting cells (APC), which leads to many effects depending on the target cell type. Recent studies have suggested that CD40/CD40L interactions regulate oxidative stress and affect various signaling pathways in both the immunological and the cardiovascular systems. The CD40/CD40L system is also involved in tumorigenesis.

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 83884-3-RR (CD40L/CD154 antibody) at dilution of 1:9000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 83884-3-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 83884-3-RR against Mouse CD40L/CD154 were performed. The affinity constant is 0.406 nM.
