

For Research Use Only

TRIM26 Recombinant antibody, PBS Only

Catalog Number: 84661-4-PBS

Basic Information

Catalog Number: 84661-4-PBS	GenBank Accession Number: BC024039	Purification Method: Protein A purification
Size: 1 mg/ml	GeneID (NCBI): 7726	CloneNo.: 24215485
Source: Rabbit	UNIPROT ID: Q12899	
Isotype: IgG	Full Name: tripartite motif-containing 26	
Immunogen Catalog Number: AG25546	Calculated MW: 62 kDa	
	Observed MW: 60-70 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human

Background Information

TRIM26 is a member of the tripartite motif (TRIM) protein family composed of more than 70 members in human. TRIM proteins share a similar characteristic structure, which includes a RING (R) domain, one or two B-boxes (B), and a coiled coil (CC) domain in the N-terminal and a domain in the C-terminal with variable structures. TRIM26 potentiates virus-triggered IRF3, NF- κ B activation, IFN- β induction, and cellular antiviral responses. Further investigation suggests that TRIM26 plays an important role in the antiviral innate immune response by bridging TBK1 to NEMO and mediating TBK1 activation. (PMID: 25763818, PMID: 26611359)

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS Only

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 84661-4-RR (TRIM26 antibody) at dilution of 1:12000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84661-4-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 84661-4-RR against Human TRIM26 were performed. The affinity constant is 47.3 pM.
