

For Research Use Only

CST5 Recombinant antibody, PBS Only

Catalog Number: 84678-4-PBS

Basic Information

Catalog Number:

84678-4-PBS

Concentration:

1000 µg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG34412

GenBank Accession Number:

BC069514

GeneID (NCBI):

1473

UNIPROT ID:

P28325

Full Name:

cystatin D

Observed MW:

14-16 kDa

Purification Method:

Protein A purification

CloneNo.:

241564A10

Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human

Background Information

CST5 (cystatin D), it is expected to be located in cytoplasmic and extracellular, and the protein is restrictively expressed at salivary gland. Human cystatin D is a novel member of the cystatin superfamily of cysteine proteinase inhibitors present in saliva and tears. The inhibitory properties displayed by cystatin D suggest that it has a function in saliva as inhibitor of either endogenous or exogenous enzymes with cathepsin S- or H-like properties (PMID: 8083219). The calculated molecular weight of CST5 is 16 kDa.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

For technical support and original validation data for this product please contact:

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

human saliva were subjected to SDS PAGE followed by western blot with 84678-4-RR (CST5 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84678-4-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 84678-4-RR against Human CST5 were performed. The affinity constant is 0.321 nM.
