For Research Use Only

AGGF1 Recombinant antibody, PBS Only proteintech®

Catalog Number:84715-3-PBS

Purification Method:

Protein A purfication

CloneNo.:

242264E9

Basic Information

Catalog Number: 84715-3-PBS

Concentration:

1 mg/ml

Source:

BC029382 GeneID (NCBI):

GenBank Accession Number:

GeneID (NCBI): 55109 UNIPROT ID:

Rabbit Q8N302 Isotype: Full Name:

IgG angiogenic factor with G patch and Immunogen Catalog Number: FHA domains 1

AG2497 Calculated MW: 714 aa, 81 kDa
Observed MW:

Observed MW: 84-100 kDa

Applications

Tested Applications: WB, Indirect ELISA Species Specificity:

Background Information

The angiogenic factor gene, AGGF1 (or VG5Q), is identified as a candidate susceptibility gene for Klippel-Trenaunay syndrome (KTS) which is a severe congenital disorder characterized by capillary malformations, venous malformations or varicose veins, and hypertrophy of the affected tissues. AGGF1 protein can bind to endothelial cells and promote cell proliferation. AGGF1 shows strong expression in blood vessels and is secreted as vessel formation is initiated. Regulation of AGGF1 by GATA1 may play roles in endothelial cell biology and angiogenesis.

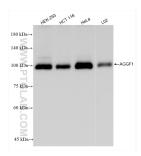

Storage

Storage: Store at -80°C.

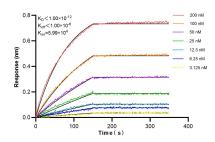

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C Storage Buffer:

PBS only, pH7.3

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 84715-3-RR (AGGF1 antibody) at dilution of 1:4000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 84715-3-PBS in a different storage buffer formulation.

Biolayer interferometry (BLL) kinetic assays of 84715-3-RR against Human AGGF1 were performed. The affinity constant is below 1 pM.
