For Research Use Only

CD151 Recombinant antibody, PBS Only

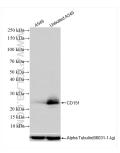

Catalog Number:85385-1-PBS

Basic Information	Catalog Number: 85385-1-PBS	GenBank Accession Number: NM_004357.5	Purification Method: Protein A purification
	Concentration: 1 mg/ml	GenelD (NCBI): 977	CloneNo.: 242425G4
	Source: Rabbit	UNIPROT ID: P48509	
	lsotype: IgG	Full Name: CD151 molecule (Raph blood group) Calculated MW: 28kDa Observed MW: 28 kDa	
Applications	Tested Applications: WB, Indirect ELISA		
	Species Specificity: human		
Background Information	CD151 (also known as TSPAN24) is a membrane protein of the tetraspanin superfamily, which are characterized by the presence of four conserved transmembrane regions. Many of these members are involved in the regulation of cell development, activation, growth and motility. CD151 is broadly expressed by a variety of cell types. It is involved in cellular processes including cell adhesion and may regulate integrin trafficking and/or function. CD151 enhances cell motility, invasion and metastasis of cancer cells.		
Storage	Storage: Store at -80°C. The product is shipped with i Storage Buffer:	ce packs. Upon receipt, store it immediatel	y at -80°C

For technical support and original validation data for this product please contact:T: 4006900926E: Proteintech-CN@ptglab.comW: ptgcn.com

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 85385-1-RR (CD151 antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 85385-1-PBS in a different storage buffer formulation.
