

For Research Use Only

PDCD6/ALG2 Recombinant antibody, PBS Only

Catalog Number: 85792-5-PBS

Basic Information

Catalog Number: 85792-5-PBS	GenBank Accession Number: BC012384	Purification Method: Protein A purification
Concentration: 1 mg/ml	GeneID (NCBI): 10016	CloneNo.: 250087B4
Source: Rabbit	UNIPROT ID: O75340	
Isotype: IgG	Full Name: programmed cell death 6	
Immunogen Catalog Number: AG2949	Calculated MW: 191 aa, 22 kDa	
	Observed MW: 15-22 kDa	

Applications

Tested Applications:
WB, Indirect ELISA

Species Specificity:
human, mouse, rat

Background Information

Programmed cell death protein 6 (PDCD6) is also named as ALG2. PDCD6 is an evolutionarily conserved Ca²⁺-binding protein. PDCD6 is required for coat protein complex II-dependent endoplasmic reticulum-to-Golgi apparatus vesicular transport in the cytoplasm (PMID: 39934130). PDCD6 is involved in regulating multifaceted and pleiotropic cellular processes in different cellular compartments. The nuclear PDCD6 regulates apoptosis and alternative splicing. And cytoplasmic PDCD6 is involved in the regulation of cytoskeletal dynamics and innate immune responses. Additionally, membranous PDCD6 participates in membrane repair through endosomal sorting complex required for transport complex-dependent membrane budding. (PMID: 38436472). PDCD6 also acts as a regulator of cytosolic DNA-induced immune responses by modulating STING transport (PMID: 34787301).

Storage

Storage:
Store at -80°C.
The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 85792-5-RR (PDCD6/ALG2 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 85792-5-PBS in a different storage buffer formulation.

HeLa cells were subjected to SDS PAGE followed by western blot with 85792-5-RR (PDCD6/ALG2 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 85792-5-PBS in a different storage buffer formulation.
