

For Research Use Only

GSTA4 Recombinant antibody, PBS Only

Catalog Number: 85954-2-PBS

Basic Information

Catalog Number:

85954-2-PBS

Concentration:

1 mg/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG11028

GenBank Accession Number:

BC015523

GeneID (NCBI):

2941

UNIPROT ID:

O15217

Full Name:

glutathione S-transferase alpha 4

Calculated MW:

222 aa, 27 kDa

Observed MW:

25 kDa

Purification Method:

Protein A purification

CloneNo.:

250352E2

Applications

Tested Applications:

WB, Indirect ELISA

Species Specificity:

human

Background Information

GSTA4 (Glutathione S-Transferase Alpha 4) is an enzyme that plays a key role in detoxification and antioxidant defense. Its structure includes a GSH-binding site and a hydrophobic substrate-binding domain, functioning as a dimer. Dysregulation of GSTA4 is linked to diseases like cancer, neurodegeneration, and diabetes.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 85954-2-RR (GSTA4 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 85954-2-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (-20°C Ethanol) fixed HEK-293 cells using GSTA4 antibody (85954-2-RR, Clone: 250352E2) at dilution of 1:200 and CoraLite® 488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2). This data was developed using the same antibody clone with 85954-2-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 85954-2-RR against Human GSTA4 were performed. The affinity constant is 0.489 nM.
