Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 86396-1-RR (IL-25/IL-17E antibody) at dilution of 1:2000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 86396-1-PBS in a different storage buffer formulation.

rat testis tissue were subjected to SDS PAGE followed by western blot with 86396-1-RR (IL-25/IL-17E antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 86396-1-PBS in a different storage buffer formulation.
