

For Research Use Only

PGCP Recombinant antibody, PBS Only

Catalog Number: 86405-1-PBS

Basic Information

Catalog Number:

86405-1-PBS

Concentration:

1000 μ g/ml

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG9770

GenBank Accession Number:

BC020689

GeneID (NCBI):

10404

UNIPROT ID:

Q9Y646

Full Name:

plasma glutamate carboxypeptidase

Calculated MW:

472 aa, 52 kDa

Observed MW:

52 kDa

Purification Method:

Protein A purification

CloneNo.:

251059H3

Applications

Tested Applications:

WB, IF/ICC, Indirect ELISA

Species Specificity:

human, rat

Background Information

PGCP(plasma glutamate carboxypeptidase) is also named as LCH1,CPQ and belongs to the peptidase M28 family. It may play an important role in the hydrolysis of circulating peptides. It catalyzes more efficiently the hydrolysis of dipeptides with unsubstituted terminals into amino acids. It is a proteinase that acts on the unsubstituted N- and C-termini of dipeptides. It has been suggested that this PGCP is involved in the release of thyroxine(PMID:20951214). Human PGCP is a metalloproteinase with five potential glycosylation sites, whose activity depends on dimerization and it can be detected a band of 65-72kd in FRTL-5 cells which is pro-PGCP(PMID:22127294). It can be N-glycosylated(PMID:10206990). It has the pro-form of 60-65 kDa and mature form of 55 kDa(PMID:20951214).

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 86405-1-RR (PGCP antibody) at dilution of 1:5000 incubated at room temperature for 1.5 hours. Negative control: mouse brain tissue. This data was developed using the same antibody clone with 86405-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed LO2 cells using PGCP antibody (86405-1-RR, Clone: 251059H3) at dilution of 1:400 and CoraLite® 488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2), CL594-Phalloidin (red). This data was developed using the same antibody clone with 86405-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 86405-1-RR against Human PGCP were performed. The affinity constant is below 1 pM.
