

For Research Use Only

C5 Recombinant monoclonal antibody, PBS Only (Capture)

Catalog Number:86463-3-PBS

Basic Information

Catalog Number:

86463-3-PBS

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

EG4205

GenBank Accession Number:

NM_001735.3

GeneID (NCBI):

727

UNIPROT ID:

P01031

Full Name:

complement component 5

Calculated MW:

188 kDa

Purification Method:

Protein A purification

CloneNo.:

251190F8

Applications

Tested Applications:

Sandwich ELISA, Indirect ELISA

Species Specificity:

human

Background Information

The complement system is an important effector that bridges the innate and adaptive immune systems. The fifth component of complement, C5, is part of the complement cascade and plays an important role in inflammation and cell killing. It consists of disulfide-linked alpha and beta polypeptide chains but can be cleaved into two active peptides (C5a and C5b) by C5 convertases. Mutations and defects in C5 are associated with severe recurrent infections. This antibody specifically recognizes the C5 alpha chain.(PMID: 20010915; PMID: 8011297; PMID: 6554279)

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

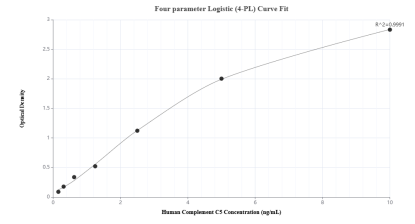

Selected Validation Data

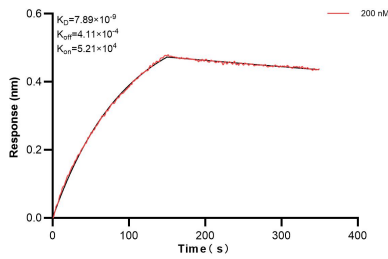

The mean Complement C5 concentration was determined to be 200.14 ng/mL in C6 cell extract based on a 1.3 mg/mL extract load.

Serum of plasma individual healthy human donors was measured. The human Complement C5 concentration of detected samples was determined to be 75.89 ng/mL with a range of 17.23 - 319.31 ng/mL.

Sandwich ELISA standard curve of MP02611-1, Human Complement C5 Recombinant Antibody Pair - PBS only. 86463-3-PBS was coated to a plate as the capture antibody and incubated with serial dilutions of standard Eg4205. 86463-2-PBS was HRP conjugated as the detection antibody. Range: 0.156-10 ng/mL

Biolayer interferometry (BLI) kinetic assay of 86463-3-PBS against Human C5 was performed. The affinity constant is 7.89 nM.
