

For Research Use Only

# WRAP53 Recombinant antibody, PBS Only

Catalog Number: 86487-1-PBS

## Basic Information

Catalog Number: 86487-1-PBS	GenBank Accession Number: BC002336	Purification Method: Protein A purification
Concentration: 1000 µg/ml	GeneID (NCBI): 55135	CloneNo.: 25139188
Source: Rabbit	UNIPROT ID: Q9BUR4	
Isotype: IgG	Full Name: WD repeat containing, antisense to TP53	
Immunogen Catalog Number: AG6522	Calculated MW: 59 kDa	
	Observed MW: 72-75 kDa	

## Applications

Tested Applications:  
WB, Indirect ELISA

Species Specificity:  
human, mouse

## Background Information

WRAP53 (WD40-encoding RNA Antisense to p53), also known as TCAB1 and WDR79, is a multifunctional protein encoded by a gene that produces both a coding mRNA and a regulatory antisense RNA targeting the tumor suppressor p53. Initially identified for its role in maintaining genomic stability by regulating p53 expression, WRAP53 is crucial for telomerase assembly and localization to Cajal bodies, impacting telomere maintenance. It also participates in DNA damage repair and cellular stress responses. The calculated molecular weight of WRAP53 is about 59 kDa, but the actual observed molecular weight is about 72-75 kDa, which may be due to modification.

## Storage

Storage:  
Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:  
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

## Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 86487-1-RR (WRAP53 antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 86487-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 86487-1-RR against Human WRAP53 were performed. The affinity constant is below 1 pM.
