

For Research Use Only

Glutamine synthetase Recombinant monoclonal antibody, PBS Only

Catalog Number: 86716-1-PBS

Basic Information

Catalog Number: 86716-1-PBS	GenBank Accession Number: BC011700	Purification Method: Protein A purification
Source: Rabbit	GeneID (NCBI): 2752	CloneNo.: 251711A8
Isotype: IgG	UNIPROT ID: P15104	
Immunogen Catalog Number: AG1510	Full Name: glutamate-ammonia ligase (glutamine synthetase)	
	Calculated MW: 374 aa, 42 kDa	
	Observed MW: 40-42 kDa	

Applications

Tested Applications:
WB, IP, Indirect ELISA

Species Specificity:
human, mouse, rat

Background Information

GLUL (Glutamine synthetase) is also named as GS, GLNS and belongs to the glutamine synthetase family. This enzyme has 2 functions: it catalyzes the production of glutamine and 4-aminobutanoate (gamma-aminobutyric acid, GABA), the latter in a pyridoxal phosphate-independent manner. By similarity, Essential for proliferation of fetal skin fibroblasts (PMID:18662667). Defects in GLUL are the cause of congenital systemic glutamine deficiency (CSGD). Organismal glutamine production is augmented secondary to an increase in the activity of glutamine synthetase in the lung and skeletal muscle (PMID:7630137).

Storage

Storage:
Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:
PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 86716-1-RR (Glutamine synthetase antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 86716-1-PBS in a different storage buffer formulation.

Various lysates were subjected to SDS PAGE followed by western blot with 86716-1-RR (Glutamine synthetase antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 86716-1-PBS in a different storage buffer formulation.

IP result of anti-Glutamine synthetase (IP:86716-1-RR, 4ug; Detection:86716-1-RR 1:2000) with mouse liver tissue lysate 2480 ug. This data was developed using the same antibody clone with 86716-1-PBS in a different storage buffer formulation.
