

For Research Use Only

MFF Recombinant monoclonal antibody, PBS Only

Catalog Number: 87972-1-PBS

Basic Information

Catalog Number:

87972-1-PBS

Source:

Rabbit

Isotype:

IgG

Immunogen Catalog Number:

AG9990

GenBank Accession Number:

BC000797

GeneID (NCBI):

56947

UNIPROT ID:

Q9GZY8

Full Name:

mitochondrial fission factor

Calculated MW:

38 kDa

Observed MW:

27-38 kDa

Purification Method:

Protein A purification

CloneNo.:

260043G2

Applications

Tested Applications:

WB, IF/ICC, Indirect ELISA

Species Specificity:

human, mouse, rat

Background Information

Mitochondrial Fission Factor (MFF) is a critical regulator of organelle division, specifically playing a central role in the fission of mitochondria and peroxisomes. DRP1, MiD, and MFF form a trimeric complex in which MiD proteins facilitate the MFF-DRP1 interaction. Moreover, MiD51 can inhibit MFF-induced activation of DRP1 GTPase activity. Multiple isoforms of MFF exist due to the alternative splicing. This antibody recognizes the endogenous MFF protein around 26-29 kDa and 35-38 kDa. (PMID: 39365854, PMID: 37291333)

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS only, pH7.3

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

Various lysates were subjected to SDS PAGE followed by western blot with 87972-1-RR (MFF antibody) at dilution of 1:10000 incubated at room temperature for 1.5 hours. This data was developed using the same antibody clone with 87972-1-PBS in a different storage buffer formulation.

Immunofluorescent analysis of (4% PFA) fixed HepG2 cells using MFF antibody (87972-1-RR, Clone: 260043G2) at dilution of 1:500 and CoraLite® 488-Conjugated Goat Anti-Rabbit IgG(H+L) (SA00013-2). This data was developed using the same antibody clone with 87972-1-PBS in a different storage buffer formulation.
