

For Research Use Only

Anti-Mouse CD324 (E-cadherin) Rabbit Recombinant Antibody, PBS Only

Catalog Number: 98140-1-PBS

Basic Information

Catalog Number:

98140-1-PBS

Size:

1mg, 2 mg/ml

Source:

Rabbit

Isotype:

IgG

GenBank Accession Number:

NM_009864.3

GeneID (NCBI):

12550

UNIPROT ID:

P09803

Full Name:

cadherin 1

Calculated MW:

98kDa

Purification Method:

Protein A purification

CloneNo.:

241282C1

Applications

Tested Applications:

FC

Species Specificity:

mouse, canine

Background Information

Cadherins are a family of transmembrane glycoproteins that mediate calcium-dependent cell-cell adhesion and play an important role in the maintenance of normal tissue architecture. E-cadherin (epithelial cadherin), also known as CD324, CDH1 (cadherin 1) or CAM 120/80, is a classical member of the cadherin superfamily which also include N-, P-, R-, and B-cadherins. E-cadherin is expressed on the cell surface in most epithelial tissues. The extracellular region of E-cadherin establishes calcium-dependent homophilic trans binding, providing specific interaction with adjacent cells, while the cytoplasmic domain is connected to the actin cytoskeleton through the interaction with p120-, α -, β -, and γ -catenin (plakoglobin). E-cadherin is important in the maintenance of the epithelial integrity, and is involved in mechanisms regulating proliferation, differentiation, and survival of epithelial cell. E-cadherin may also play a role in tumorigenesis. It is considered to be an invasion suppressor protein and its loss is an indicator of high tumor aggressiveness.

Storage

Storage:

Store at -80°C.

The product is shipped with ice packs. Upon receipt, store it immediately at -80°C

Storage Buffer:

PBS Only

For technical support and original validation data for this product please contact:

This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

1x10⁶ MDCK cells were surface stained with 0.25 ug Anti-Mouse CD324 (E-cadherin) Rabbit Recombinant Antibody (98140-1-RR, Clone:241282C1) (red) or Isotype Control (blue) and PE-Conjugated Goat Anti-Rabbit IgG(H+L). Cells were not fixed. This data was developed using the same antibody clone with 98140-1-PBS in a different storage buffer formulation.

Biolayer interferometry (BLI) kinetic assays of 98140-1-RR against Mouse CD324 (E-cadherin) were performed. The affinity constant is 3.73 nM.
